MERIDIAN
SUPPLY & SERVICES

About us

MERIDIAN Supply & Services is a company specializing in the supply of materials, equipment and spare parts, and in the execution of civil, mechanical, electrical and instrumentation works and services for the energy and industrial sectors.

Our technical knowledge of the products, together with close relationships with specialized manufacturers and suppliers, allows us to offer reliable, competitive solutions tailored to the needs of each project, ensuring quality, efficiency and on-time delivery.

We have a team of 50 professionals and 30,000 m^2 of operating infrastructure across Barcelona and El Tigre, Anzoátegui state, as well as our head office in Lechería.

At MERIDIAN Supply & Services, our commitment goes beyond traditional supply: we integrate technical, logistical and operational capabilities to become a strategic partner that contributes to the continuity, efficiency and success of our clients' operations.

MERIDIAN
SUPPLY & SERVICES

One point of reference from purchase order to your project's start-up.

Mission

To provide integrated supply solutions for specialized materials, equipment and spare parts, and to execute works and services for the oil and energy industry, through efficient management, sound technical knowledge and rigorous compliance with quality and safety standards and contractual commitments, contributing to our clients' operational continuity, reliability and productivity.

Vision

To establish ourselves as a benchmark company in Venezuela's oil and energy sector, recognized for our ability to integrate supply solutions, execution of works and specialized services, ensuring reliability, efficiency and operational excellence at every stage of a project, from engineering to start-up.

Values

Safety, integrity, commitment and respect. We say what we do, deliver what we sign and prove it with evidence.

MERIDIAN
SUPPLY & SERVICES

Supply

We procure the goods each project needs on time, working with the industry's key manufacturers.

Progressing cavity pumps

LIFTING SOLUTIONS
by Flowco

Partnership with Lifting Solutions

Drive heads

Heads for pumping and drilling systems.

API 11B sucker rods

Sucker rods to the API 11B standard.

Materials and spare parts

Quality materials, equipment and spare parts for maintenance and projects.

Variable speed drives

Drives for powering and controlling equipment in the field.

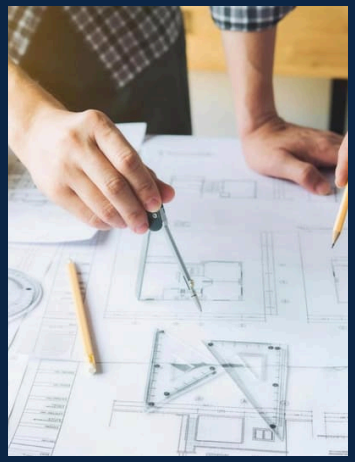

Special piping

Special piping and pigtails for process units.

MERIDIAN
SUPPLY & SERVICES

Services

Integrated engineering and execution solutions, backed by specialized personnel and technical capabilities to carry out each project, from planning to start-up.

Engineering

Field engineering calculation and design: basic, conceptual and detailed engineering to each client's requirements.

Fabrication and erection

Light and heavy steel structures, tanks, pipe supports, spools and concrete works: vaults, supports, foundations and slabs.

Installation

Field installation of measurement and control instruments, calibration and testing, fire protection systems and cathodic protection.

Maintenance

Repair and maintenance of furnaces, tanks, boilers and heat exchangers; testing, thermal insulation, sandblasting and painting.

Welding

Carbon steel (A53, A105, API 5L Gr B, A333 Gr 6), stainless steel (SA-304, 312, 316, 317, 321 and 347) and chrome steel (A335 P9 and P11).

MERIDIAN
SUPPLY & SERVICES

Safety and quality

Safety is, above all, an act of responsibility to oneself, to others and to our surroundings.

Safety

Occupational safety, health and hygiene under Venezuela's LOPCYMAT law, the SIHO-A system and each client's policies, with continuous training.

Quality

We meet national and international standards and each client's technical specifications, with an EPC approach and continuous process review.

MERIDIAN
SUPPLY & SERVICES

Experience

More than 20 projects for the country's leading oil, gas and petrochemical operators.

Petromonagas
Heat exchangers, air coolers and progressing cavity pumps

PDVSA Puerto La Cruz Refinery
FCC and DA-1 units, water treatment and Deep Conversion

Petro San Félix
Preheat train and 36-inch pipeline to the monobuoy

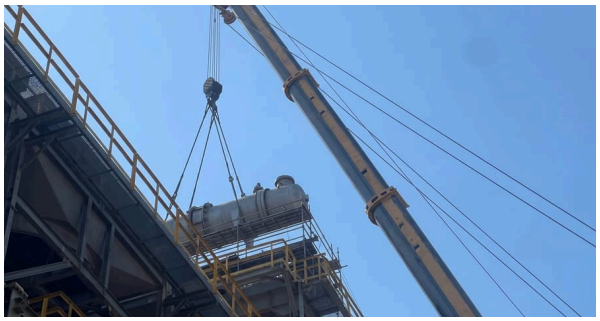

Petrolera Roraima
Retubing of heat exchangers and air coolers

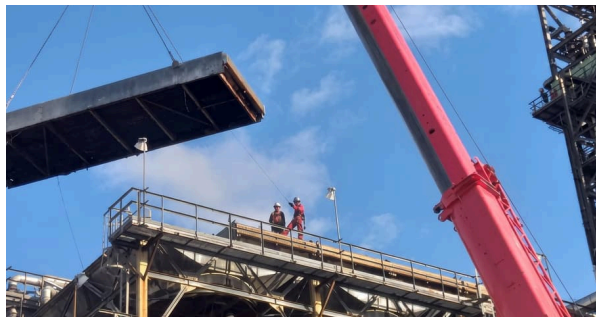

PDVSA El Chaure Refinery
Heat exchangers at the DA-3 distillation unit

PDVSA Bariven
Construction of the new EW-50.4 warehouse

PDVSA Gas
Tie-in of the 8-inch naphtha line

Metanol de Oriente, METOR S.A.
Petrochemical sector

MERIDIAN
SUPPLY & SERVICES

Featured projects

Petromonagas

Heat exchangers and air coolers

Major maintenance at the extra-heavy crude upgrader and the operations center.

- Exchangers 11-E-1101 A/B at the diluent recovery unit.
- Crude heat exchangers at the operations center.
- Maintenance and replacement of air cooler bays.
- Supply of progressing cavity pumps.

PDVSA Puerto La Cruz Refinery

Process unit maintenance

Exchangers, rotating equipment and process units, plus construction and erection works for the Deep Conversion project.

- Exchangers at the FCC and DA-1 units.
- Columns, drums, pumps and turbines at the FCC unit.
- Osmosis plant and fresh and oily water treatment.
- Relocation of the 26-inch gas line at Macotal.
